PROFESSIONAL ACTIVITIES

Co-organizer: Development Economics PhD Workshop at Helsinki GSE
Referee: *Scandinavian Journal of Economics*

GRANTS

PhD Grant, Academy of Finland

2017–2021

PhD Completion Grant, European University Institute

2020

RESEARCH

Job Market Paper

“Populism and Ideological Convergence: Evidence from a Multiparty System”

Populist parties have gained significant power in European politics in the last decades, raising concerns over the potentially contagious effect of populism. I study how populist party representation in local councils affects other parties' ideological positions. I use variation created by close elections to identify ideological shifts resulting from a change in party representation, holding voter preferences constant. I derive ideological positions from a voting advice application, and model candidates' responses using item response theory to obtain measures of ideology that are comparable across election years. I show that higher populist representation causes mainstream parties to become more ideologically aligned with the populist party. The results demonstrate that increased populist representation can spread populist ideologies.

Working Papers

“When Facebook is the Internet: the Role of Social Media in Ethnic Conflict”, [EUI WP 2021/01](#)

This paper investigates whether social media affects the intensity of ethnic conflict. To distinguish the potential effects of social media from those of the broader internet, I focus on the ongoing Myanmar conflict because in such context internet is mainly accessed via Facebook. To identify the causal effect of social media on conflict, I take advantage of a shock in Facebook availability and use local variation in cell phone coverage as an exogenous determinant of social media use. Results indicate that on average

social media availability reduced the occurrence of conflict. However, the analysis reveals important regional differences suggesting that inflammatory content on social media may escalate conflict in areas where ethnic tensions are particularly high.

Work in Progres

“Making the Cut: Close Elections and Local Welfare Policies”, with Nikolaj Broberg and Thomas Walsh
“Politician Ideology and Policy Outcomes”

Policy Papers (in Finnish)

“Profitability, competition, and development needs in the private rental housing market”, with Eeva Alho, Valtteri Härmälä, Antti Kekäläinen, Kirsi Noro and Lauri Vuori, Publications of the Government’s analysis, assessment and research activities 9/2018.

“Immigrants on the labour market – A study of the working lives of immigrants arriving in Finland in different years”, with Henna Busk, Signe Jauhiainen, Antti Kekäläinen and Satu Nivalainen, Finnish Centre for Pensions, Studies 6/2016.

“Patient freedom of choice, the Swedish model and Finland’s health and social services reform – from the point of view of functionality of the markets and economic effects”, with Ari Ahonen and Liisa Vuorio, Publications of the Finnish Competition and Consumer Authority 6/2015.
